Jeff Thron	Board	651-226-7508
Jessica Thron	Secretary	763-232-3504

GOPHER STATE GARDEN TRACTOR PULLERS, INC. SANCTIONED EVENT CONTRACT

This contract is a binding agreement between Gopher State Garden Tractor Pullers Inc. and the signed Promoter to sanction a GSGTP Garden Tractor Pull at the agreed place and time. This contract can only be canceled due to weather conditions which render track conditions unacceptable for a safe and competitive pull. GSGTP does not assume responsibility for accidents or injuries. In the event of an inclement weather cancellation during the event, a completed pulling event constitutes at least half of the pulling classes having been completed with a completed class being defined as at least half of the class in question having been completed.

SUPPLIED BY GOPHER STATE GARDEN TRACTOR PULLERS, INC.

1. Competitor registration starting 1½ hours prior to event start time.
2. Public Address System and Announcer.
3. Portable Weight Scale, Weight Transfer Sled and Track Officials.
4. Track equipment, layout and marking.
5. Spectator liability insurance, certificate of insurance available upon request. Additional insurance coverage available subject to negotiation.
6. 2½ to 3 hours of garden tractor pulling entertainment and winner pay-out.

RESPONSIBILITIES OF PROMOTING ORGANIZATION

1. Suitable track and parking area to hold event. A groomed, clay track is preferred. Asphalt tracks are acceptable providing it is in good condition and an adequate distance for safety zone between track and spectators is provided. For dirt tracks, a grading blade to keep track smooth and a source of water to keep dust down is required. Track must be worked before event in order to put on an entertaining show. Recommended track length: 200 to 400 feet. Parking area suitable to accommodate competitors' vehicles, trailers & competition tractors.
2. A fence or solid barrier is required at least 10 feet back from track side line to restrain spectators. If barrier is not possible, spectators must be kept at least 25 feet back from side line of track.
3. A form of bleachers is suggested to give spectators a full view of the track, as well as for safety.
4. A pull back tractor to pull Weight Transfer Sled back to starting line after each pull. A self-propelled transfer sled is normally used, but a backup is recommended.
5. It is required that arrangements be made for 1st Responder or equivalent to be present during the pull.
6. Promoter agrees to allow 2 adults per pulling tractor and all GSGTP Officials into event and pit area at no charge. If qualified participants or officials are charged at the gate, promoter agrees to reimburse admission fee at registration table.

For further in formation on event scheduling or requirements, please contact any of the GSGTP Board Members listed above.
